Subject: Barrington - Public Water System: Amazing Children Learning Ctr. (EPA #0155090)

Dear Ms. Breakfield:

The records of the Department of Environmental Services (DES) show that the Amazing Children Learning Center water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system serving 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system is required to have a certified operator to operate and maintain the water system to protect public health pursuant to RSA 332-E and New Hampshire Administrative Rule Env-Ws 367.

DES records show that the subject water system failed to obtain a certified operator and as a result an "Important Reminder" letter was issued on February 28, 2006, a copy of which is enclosed. To date, DES has not received any correspondence indicating that the Amazing Children Learning Center water system has a certified operator (Distribution Grade 1A) as required. If our records are in error and you presently have a certified operator, please notify this office in writing **by June 14, 2006**.

If you do not have a certified operator, DES believes the violation can be corrected by taking the following action:

1. **By June 28, 2006**, obtain a certified Distribution Grade 1A operator to operate and maintain the water system and notify DES in writing of the name and license number of the operator.

Please contact Harrison "Chip" Mackey at (603) 271-2410 or by email at hmackey@des.state.nh.us, if you have any questions regarding the requirements of a certified operator. A listing of firms offering operational services for small water system is available at <http://www.des.state.nh.us/factsheets/ws/ws-7-2.htm>.

Please contact Emily Jones by phone at (603) 271-0659, or by e-mail at ejones@des.state.nh.us if you have any questions regarding this letter.

Sincerely,
